Julie Clark Lingen is a national award-winning author, speaker, life coach, entrepreneur and lover of life. You don't have to be around her long to feel her warmth, love, laughter, kindness, and joy. Julie's passion for life comes from learning she is living 50% at-risk

for one of the world's cruelest diseases—Huntington's Disease—a rare, incurable degenerative brain disease that threatens to cut her life short.

Since then, she has become more determined than ever to live each day to the fullest and inspire others to do so as well with a reminder that none of us know what the future holds.
