

**FLORIDA 2030**  
FLORIDA CHAMBER FOUNDATION

## Be Sure to Join us in Pensacola as we Release Florida 2030 Recommendations

Florida requires a plan that will address the challenges and opportunities future growth will bring and that brings long-term conversations and solutions to the table. That's where the **Florida 2030** Project comes in — it's the next part of the Chamber Foundation's well-known Cornerstone report series and builds on the recommendations of previous Cornerstone reports which have helped to shape policy and put a long-term lens to Florida's future.

Join us and Northwest Florida leaders as we discuss how we can leverage Florida 2030 research and recommendations to complement and enhance the Northwest Florida Forward efforts.

Your voice matters in helping to secure Florida's future. Please join us as we release the Florida 2030 recommendations in **Pensacola on July 25**.
