

The logo for Epilepsy Florida, featuring the word "EPILEPSY" in a bold, dark blue, sans-serif font above the word "FLORIDA" in a lighter blue, sans-serif font. The text is centered on a white background that is framed by a purple and teal geometric shape at the top.

Dear Friend,

We've got some big news to share and we hope you're as excited about it as we are.

Starting today, the Epilepsy Foundation of Florida is now **Epilepsy Florida**. We're a founding partner of Epilepsy Alliance America, a brand-new, national collective of state and local epilepsy organizations dedicated to providing service, support, and hope to people with epilepsy. We're launching this new effort today alongside six other states, with more joining in the months ahead.

What does this mean for you?

It's simple. We've got a new name but the same mission of caring for people with epilepsy, and the people who care for them.

If you're a client or caregiver, you can expect the same great resources and support you're used to receiving, without interruption. If you're a partner organization, you can expect continued partnership in serving our communities. And if you're a contributor, you can expect every dollar donated to stay right here in Florida, providing hope for our neighbors with epilepsy. As CEO of Epilepsy Florida, you can count on this.

Why the change?

It's all about you. For years, we've been an affiliate of the Epilepsy Foundation of America. While we're strong believers in funding epilepsy research and working to find a cure, our highest responsibility is to you, and everyone living with epilepsy today. With the Epilepsy Foundation's increasing shift towards research, it became necessary for us to part ways, and keep our focus right here in Florida and serving you, here and now.

It's a brand new day for people with epilepsy. We're excited and proud to remain the foremost provider of support and care for Floridians with epilepsy.

We're committed to being the first call for anyone living with epilepsy, the person newly diagnosed with epilepsy, the parent of a child struggling with seizures, and the caregiver of a loved one without work because of their condition. We are here for you.

Let us know if you have questions - we'd love to answer them. Learn more about Epilepsy Alliance America by visiting [EpilepsyAllianceAmerica.org](http://EpilepsyAllianceAmerica.org).

*Sincerely,*

***Karen Basha Egozi***
