ABOUT MR. ROBBINS' NEIGHBORHOOD

The purpose of Mr. Robbins Neighborhood is to inform student athletes of the realities of chasing a professional sports career while arming them with the knowledge and skills to achieve success in non-sports arenas. The harsh reality is 99.81 percent of high school athletes who participate in sports do not achieve a professional sports dream. Even for those who do play professionally, athletic careers are often short lived. The MRN program is rooted in the effort to broaden the landscape of what inspiration, dreams and goals can look like for the youth of Pensacola. The organization's goal is to decrease the number of young athletes who are not prepared at the end of a high school, collegiate or professional career to transition to a new profession and realize their true potential.
