

# Dynamic Life

## CHIROPRACTIC

Hello Pensacola, Florida!

We are Dynamic Life Chiropractic, a neurologically based chiropractic office new to the Pensacola area! We came all the way from Kansas City, KS to make Pensacola our new home. People always ask us, "why Pensacola?" Long story short: your white, sandy beaches are much more fun to play in than our cornfields, we love your southern hospitality, and we could use a little more sunshine and A LOT less of the snow! We are so excited to meet you & serve the community in any way that we can. Stay up to date with us because we have EXCITING things coming soon! But first.. here's a little snippet about us:

Dr. Gabriel is a former U.S. Marine and a graduate of Cleveland Chiropractic College and Cleveland University in Kansas City. Danielle is a former critical care (ICU) RN and a graduate of Newman University in Wichita, KS. We were born and raised in Kansas City until we decided to pursue our dream along the Emerald Coast! Together, we have two dogs & a cat. And yes, our two pups will be with us in our office to meet and greet all of you! We love the outdoors, health/fitness, trying new food, traveling, reading, and meeting new people. We are also looking forward to our destination wedding in Mexico, December 2019 where we will become husband and wife!

Finally, we want to thank all of you for welcoming us so graciously into the community with open arms. Your warmth and kindness solidify our decision to make Pensacola our home.
