### **Montessori Education Math Overview**

PENSACOLA, FL-

The Montessori method of education teaches math in unique hands-on ways. MSP is hosting a free overview of the Montessori math curriculum from Early Childhood through Middle School.

This event will take place at MSP's Montessori Drive campus (4100 Montessori Drive Pensacola, FL 32504) Saturday, October 20th, 9am-12pm. Attendees will see examples of math materials, visit classrooms, and hear from MSP staff about math instruction. Coffee and breakfast will be served. This event is free and open to the public.

The Montessori math curriculum is one of the best examples of the unique beauty of Montessori materials. First, the Montessori practical life and sensorial activities give indirect preparations for math. Then the math materials continue to prepare the child for later learning. Visitors to my Montessori classroom, young and old alike, gravitate to the math shelves, wanting touch and learn how to use the materials.

Parents who have attended in the past have this to say: "I had no idea the depth of Montessori education!" "I left excited and impressed."

#### **Further information:**

MSP serves children 18 months-8<sup>th</sup> grade. MSP has offered a progressive educational choice for the Pensacola community for over 40 years. It is the only accredited Montessori school in Northwest Florida.
